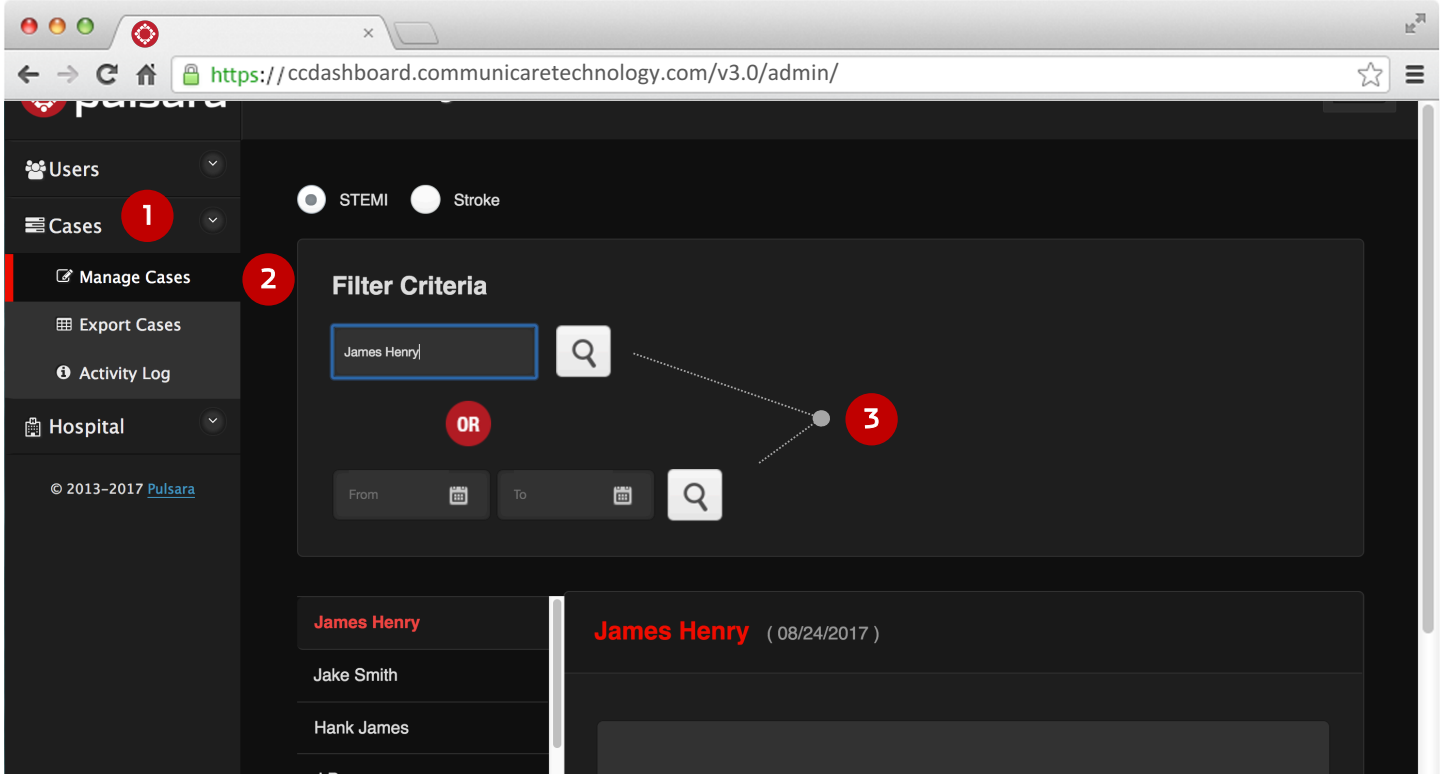
Reviewing and Editing Cases

Hospital Dashboard

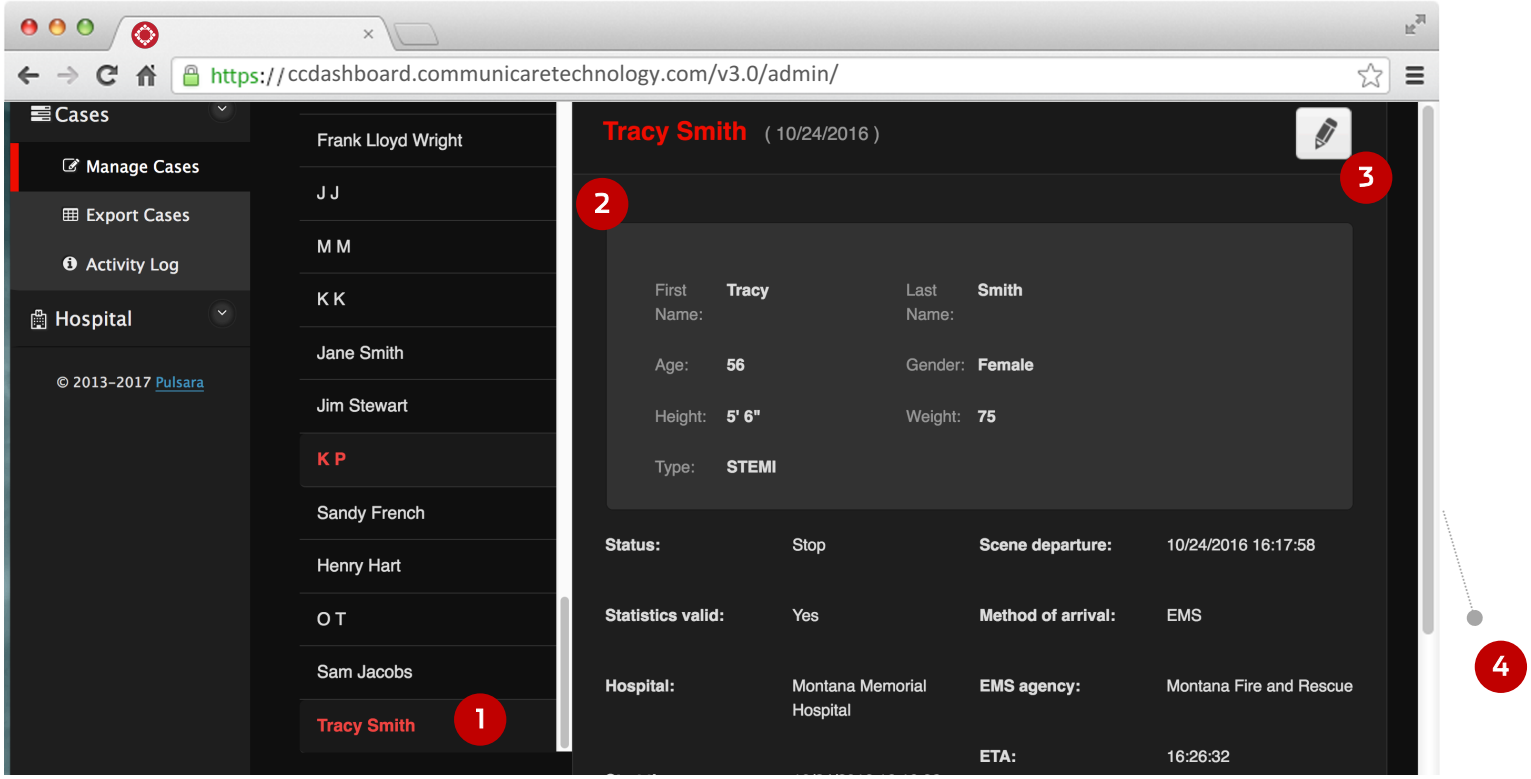


1. From the ***Cases*** Tab
2. Click ***Manage Cases***
3. You can search for a specific case by entering the patient name or searching by the date of service.

pulsara

Reviewing and Editing Cases

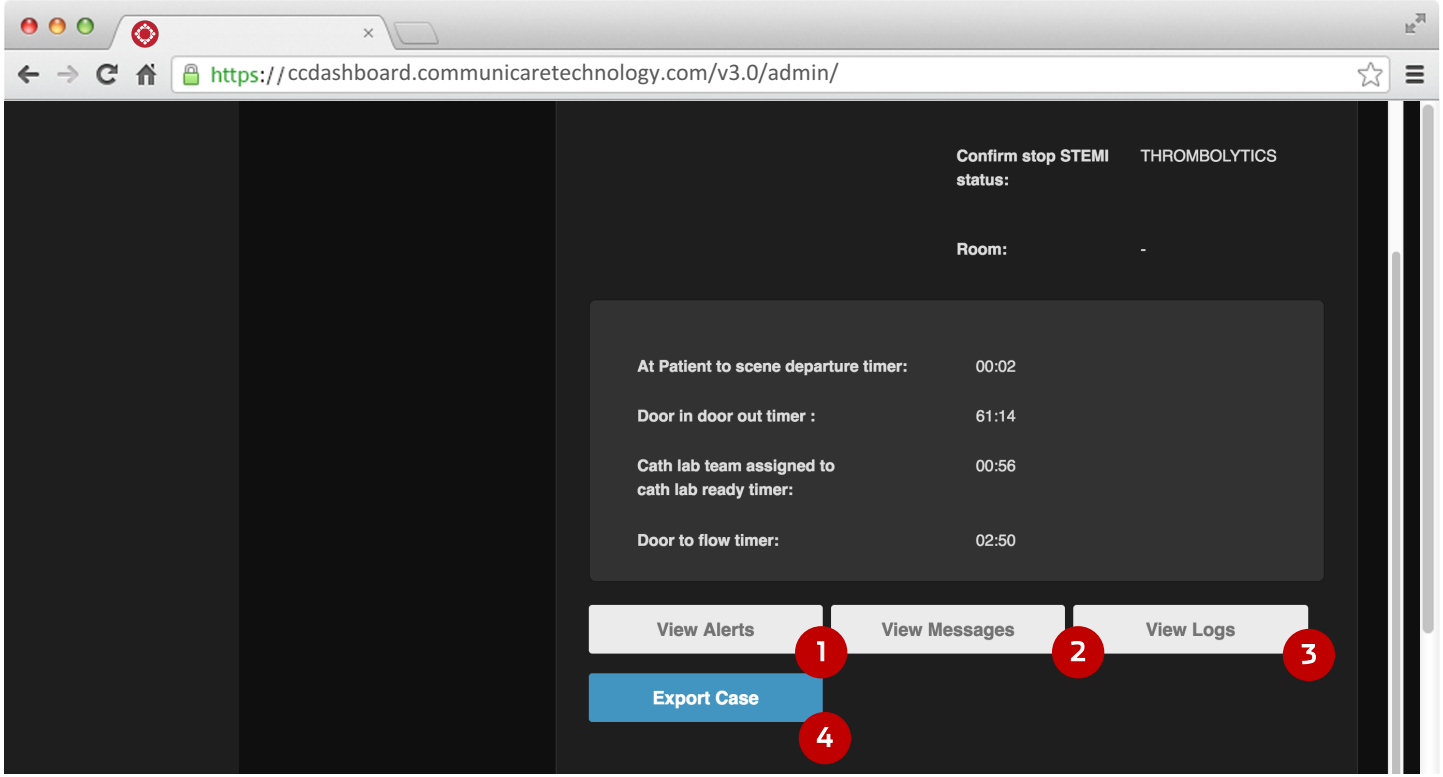
Hospital Dashboard



1. Click on the name of the specified case.
2. The case profile will include the patient name, demographics and all data points that were captured in Pulsara.
3. To edit the case, tap the pencil in the upper right-hand corner.
4. Scroll down to view more…

Reviewing and Editing Cases

Hospital Dashboard



At the bottom of the screen, you will find four action tabs:

1. ***View Alerts:*** An overview of all alerts sent throughout the course of the case.
2. ***View Messages:*** A record of all messages sent throughout the course of the case.
3. ***View Logs:*** An in-depth record of every action taken in the application throughout the case. Ideal for auditing the who/what/where/when of a case.
4. ***Export Case:*** Click Export case for a PDF summary of the entire case.
