

Custom Template Messages

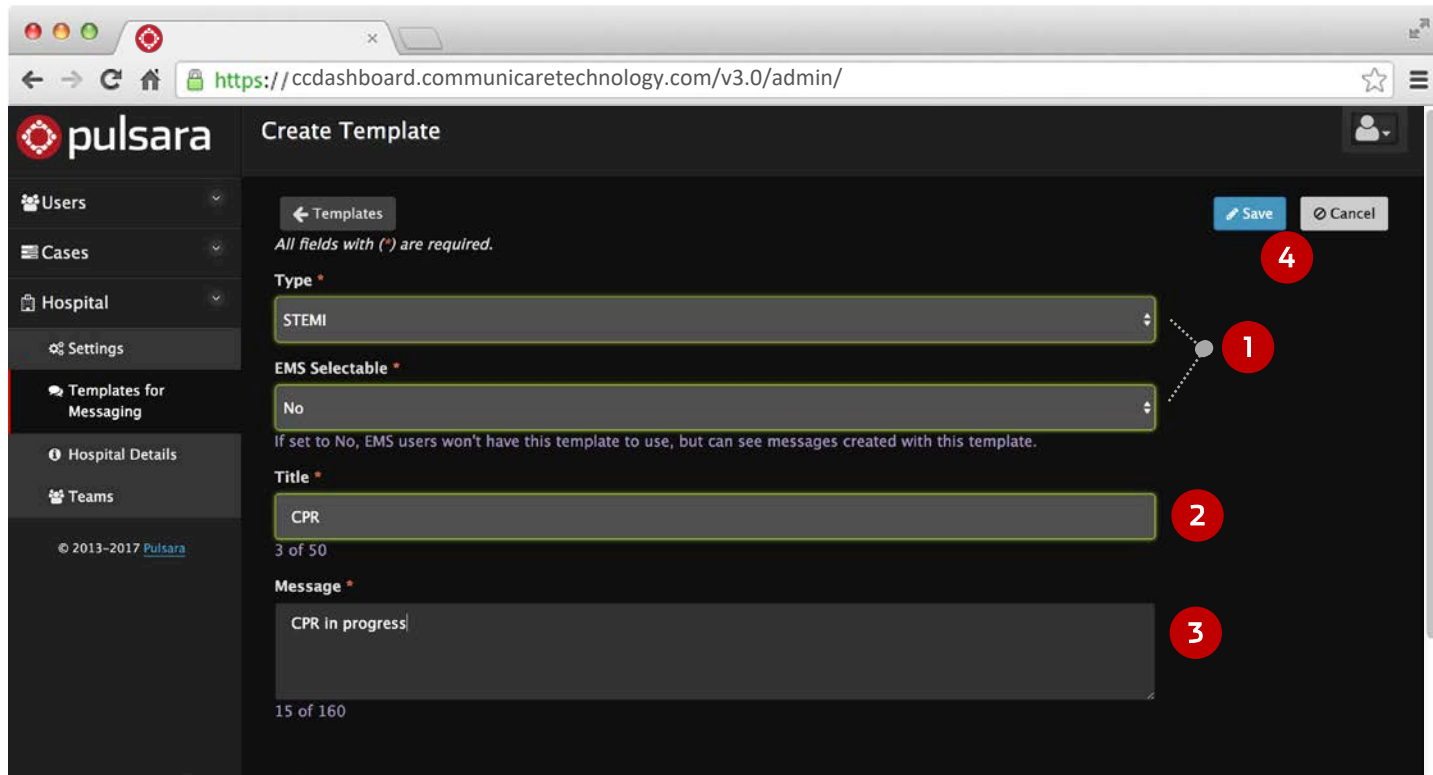

Hospital Dashboard

- 1 From the **Hospital** tab, select '**Templates for Messaging.**'
- 2 Next, select **STEMI**, **Stroke** or **General**.
- 3 Click **+ Template** to add a custom template message to the module you have selected.

Custom Template Messages

Hospital Dashboard

- 1 Select a **Type** and indicate whether or not you would like your EMS partners to have access the template. **NOTE** – if you select 'NO' EMS will still be able to see the message, they simply will not be able to use the template.
- 2 Choose a short **Title** for your template message.
- 3 Add your **Message**.
- 4 Click  **Save** to add the template message to Pulsara. **NOTE** – once the message has been saved, it will be immediately available for use in the Pulsara mobile application.
